Product Specification – Pecan Halves

• If any nutritional, dietary suitability or allergen claims are to be made on the product or finished products containing the material as an ingredient, the customer is responsible for ensuring that the claim is suitably risk assessed and validated, including any testing as deemed to be required.
• Products may be subject to sampling by authorities or as part of Sahara UK Food Ltd and/or supplier(s) due diligence controls. Appropriate hygiene and sampling procedures are in place to ensure the integrity of the product is maintained. Original seals may be broken and resealed to facilitate this.
• The integrity of the product packaging should not be compromised during routine transportation, storage and handling of the product.
• Depending on the storage conditions, packaging conditions and product nature, this product may be prone to infestation, moisture reabsorption, colour, texture and taste changes over its shelf-life. Products must be stored in compliance with the shelf-life instructions.
• Products may become harder and clump together in cooler storage conditions, this will resolve when the product is brought back to room temperature.
• If shelf-life extension is required, it is the responsibility of the customer to validate the extension and Sahara UK Food Ltd. accepts no responsibility or liability resulting from the use of the product beyond its original shelf life.
• This is a natural product, and this specification may be subject to regular reviews in line with crop changes.

Agreement of Specification – If no signed copy of this specification is received within 28 days of issue to the Customer then this will be considered accepted.
