18. REMARKS

Use in production: If the goods or any part thereof supplied under the contract are processed, altered or tampered with in any way by the buyer or receive of the goods or any other person, the quality of the goods shall be deemed to be acceptable to the buyer. All customers' quality control checks are to be completed on the entire load, prior to production and use.
Nut & Allergen Policy: Unless otherwise stated, the products supplied are to the best of our knowledge free from nut, nut derivatives and allergens. Sahara UK Foods is a Nut Free Site. We do handle Mustard, Celery and Wheat Flour onsite. We trade in Milk Power and Sesame, these products are not processed. We have an Allergen Policy and Procedure in place.
Infestation: Relating particularly to Coriander Seed, Whole Chillies and Fennel Seed: We cannot guarantee that goods will not at a later date, be subjected to infestation, unless specifically vacuum treated or heat treated. Even after treatments, treated goods can be subjected to re-infestation if incorrectly stored. Untreated seeds, herbs and spices in any form, treated with approved chemical fumigants, are still susceptible to possible infestation, as insect eggs are not destroyed by current chemical fumigants.

19. Nut Statement

Whilst our suppliers are fully aware of consumer concerns regarding the use of Nuts and Nut products, and in many cases are nuts free sites, they are unable to give categorical assurances that their products are Nut Free from the following reasons: Many herbs and spices are grown and processed in close proximity to nuts at various origins Transportation can also be a possible source of adventitious cross contamination as many products are transported in containers from origin over which our suppliers are unable to exercise any controls.
