Product Specification – Date Syrup (Sayer)

1. Product Information

Aspect	Description
Product Name	Date Syrup (Sayer)
Product Code	SUFL7261
Product Description	Date syrup is a thick dark brown, very sweet fruit syrup extracted from dates. Besides the depth of flavor and character in Date Syrup, you will find the added benefit of potassium, magnesium, antioxidants, and trace minerals. Perhaps one of the least complicated sweeteners on earth.

2. Intended End Use:
Suitable for which groups/ Unsuitable for which groups.

Aspect	Description
Young under five years	Suitable from two years and upwards.
Elderly over sixty-five years	Suitable
Pragnant women	Suitable
Those with immune deficiency	Suitable
Coleacs	Suitable
Diabetics	Suitable
Normal population	Suitable

3. Chemical Properties:

Description of Chemical Parameters	M: Absolute maximum
Moisture %	20% - 25%
Aflatoxain B_2	2µg/kg
Total Aflatoxin	4µg/kg
Ochratoxin A	10µg/kg
Pesticides and Contaiminants	Comply with the regulation 395/2006 and its amendents
Mercury	0.5 ppm (fresh fruit)
Lead	0.1 ppm (fresh fruit)
Cadmium	0.05 pm (fresh fruit)

*Complies with EU Regulation Complies with EU Regulation 1881/2006 and FSANZ.

4. Analyze Test Result:

Test Parameters	Unit of measurement	Result	Intended end use
Brix	°Bx	68 – 74	Suitable for industries who needs more fluid with less viscous product.
Brix	°Bx	74 – 78	Suitable for industries who needs sweeter liquid solution with high viscosity.
PH	PH	3.2 – 5	All types of industries
Acidity	Meq/g	<0.55	
Sucrose	%	<2	
Fructose	%	24 – 30	
Glucose	%	34 – 42	
5-HMF	mg/lit	5 – 35	

4. Nutritional Information Per 21gr:

Parameter	Range	Parameter	Range
Energy Value	**56 kcal**	**Total Sugars** • Glucose • Fructose • Sucrose	**16.7g** 35.2g 36.5g n.ng
Fat • **Of which saturated fatty acids** • **Trans fat**	**0.1g** 0.0g 0.0g		
Carbohydrates	17g	**Protein**	**2.4g**
Sodium	4mg	**Salt**	**0.01g**
Potassium	20mg		
Calcium	10mg		
Iron	0mg		
Total dietary fiber	1g	**Ash**	**2.3g**

5. Microbiological Properties

Microbiological Item	n	c	m	M
TVC	5	2	10^3	10^4
Yeast & Mould (cfu/g)	5	2	10^3	10^4
E. Coli (cfu/g)	5	0	Absent in 25g	
Salmonella (cfu/g)	10	0	Absent in 25g	
Listeria monocytogenes (cfu/g)	5	0	100 cfu/g end of shelf life	
Total Coliforms (Enterobacteriaceae) (cfu/g)	5	2	10^2	10^3

*Compiles with EU Regulation 2073/2005

n: Number of Samples **m**: Preferred maximum **M**: Absolute maximum **C**: Number of results between m & M

**Not more than *C* results should exceed the value "m" and no result should exceed the value "M"

6. Metal Detection

Parameters	Minimum Detection Size (Sphere size)	Units
Ferrous	2.5	mm
Non-Ferrous	Cu: 3.5 Al: 2.5	mm
Stainless Steel	3	mm

7. Shelf Life and Storage Conditions

- **Production date + 18 months.**
- **Keep in cool and dry ambient, store away from sources of strong odors or which may breed insect. Rotate stocks by using oldest first.**

8. **Fummigation:**

Container with goods is fumigated immediately prior to shipment with PH3 gas at a specific dosage and time according to the temperature.

2 GRAMS PH3	/	CUBIC METER	FOR	4	DAYS	AT	16°C - 25 °C
2 GRAMS PH3	/	CUBIC METER	FOR	3	DAYS	AT	Over 25 °C

9. **Genitically Modified Organisms:**

No genitically modified organisms are permitted.

10. **Allergens:**

No Allergen. As described in EU Regulation no: 89/2003

11. **Labeling:**

Information printed on the carton:

- **Net Weight.**
- **Country of Oriin (Optional).**
- **Exporter Profile (Producer).**
- **Product Storage Information, Product Code.**

Information Printed on Label:

- **Lot No.**
- **Best Before Date.**
- **Importer Profile (Distributor).**
- **Purchase Order No. And any other information upon customer request.**

Agreement of Specification – If no signed copy of this specification is received within 28 days of issue to the Customer then this will be considered accepted.
